Antonelli Landscape

Your First Impression Is Our No. 1 Priority

Antonelli Landscape understands how important it is to create an outdoor atmosphere that you and your family will enjoy. Whether that space includes pavers, plants, pergolas, or poolscapes, Antonelli has expertise in all aspects of landscaping.

For over 17 years, Antonelli Landscape has delivered exceptional, award-winning design and installation services. Owner Jim Antonelli says that with the wide array of work his company has performed throughout Michigan, chances are there is an Antonelli home not too far from wherever you are.

"We've completed jobs in nearly every city throughout southeastern Michigan — from Bloomfield Hills to Grosse Pointe Farms," says Antonelli, whose company is known for its exquisite poolscapes and outdoor living spaces that include structural fireplaces and covered patios.

Born into a family deeply rooted in construction, Antonelli acquired knowledge in concrete and masonry at an early age. When he decided to create his own landscape business in 1995, he looked for a new approach.

"With an industry saturated with competition, I decided to break away from other outdated ideas and practices," says Antonelli, who cautions about the importance of hiring an installer who is certified in the field. "Most people do not realize that in this industry, you do not have to be licensed or certified to install."

He took it upon himself to re-examine the industry standards, build on them, and make them better. Through groundbreaking design methods and labor procedures, Antonelli fine-tuned his ideas and created an award-winning business.

"I had an idea to turn what was once a dream into a successful reality," says Antonelli, whose company is certified through ICPI, which holds standards for paving, and is a member of the Michigan Nursery Landscape Association (MNLA).

His vision called for the establishment of several unique divisions. The first is his design team, which has more than 20 years of design experience, and architectural and building credentials. These professionals are experts in both softscape and hardscape, and know what it takes to create a balance between your home and its surroundings.

Then there is the softscape team. These professionals understand where and in what soil conditions plants thrive. Antonelli will also provide an irrigation team to ensure proper water settings for your plantings.

Next is the skilled brick paving installation team. Antonelli believes a proper foundation results in a perfect paving job. As an authorized Unilock installer, Antonelli Landscape is committed to thorough base preparation that produces lasting results.

"With quality being the key component to our success, it's understood that in order to be the best installer we had to install the best product, which led us to Unilock," Antonelli says.

For homeowners contemplating a pool installation, Antonelli Landscape's pool team works closely with Michigan's top pool companies to help maximize sun exposure while providing well-designed areas for entertaining.

The masonry division includes experts in bluestone and other natural stone applications. With Michigan's stark weather conditions, their team comprehends the importance of following all state codes and regula-

tions. This is a crucial element to installing a durable masonry outdoor space in Michigan.

The maintenance division rounds out the company's field of experts and provides power washing, sanding, and sealing of brick pavers or bluestone, and maintains the plush look of your existing gardens.

"It's been our goal to be true experts in complete landscaping," Antonelli says. "We like to give our clients a personal stake in their outdoor environment."

Antonelli Landscape is dedicated to providing its clients with excellent workmanship at all times, and will not compromise any aspect of the business that will jeopardize its reputation.

Skilled in new construction and renovation, Antonelli Landscape offers free consultations and will meet you at your site to discuss your project. Financing is available so homeowners can get started on their outdoor oasis today.
